

2015 IMPACT REPORT

WE MUST ~~WAIT FOR THE RIGHT TIME TO~~ REWRITE THE STORY OF PANCREATIC CANCER. WE CAN ~~SIT BACK AND ASSESS ALL THE OBSTACLES THAT STAND IN THE WAY OF OUR QUEST TO~~ MAKE A DIFFERENCE TOGETHER. WE ~~CAN ONLY BEGIN TO~~ ~~IMAGINE WHAT WILL HAPPEN WHEN WE~~ HAVE HELPED 100,000 PATIENTS AND FAMILIES. LET'S ~~THINK ABOUT WHETHER IT REALLY IS IMPORTANT TO~~ CONTINUE TO INCREASE FUNDING AND ADVANCE RESEARCH. THERE IS SO MUCH MORE WE CAN ALL DO ~~BUT MAYBE WE SHOULD START TOMORROW.~~ IT'S TIME TO ~~STEP BACK AND LOWER OUR EXPECTATIONS.~~

WAGE HOPE.

You're helping us rewrite the future.
Thank you.

Your unwavering commitment has made a positive impact on the outlook for people fighting pancreatic cancer. The advances you've made possible will have far-reaching effects - not just for today, but for tomorrow, too. We simply could not have made it to where we are today without you. We are extremely grateful and beyond inspired by you!

There are many important victories to celebrate from the past year – we’ve achieved a number of major milestones, thanks to your support. And that’s great. But we can’t stop here. There’s so much more we need to do. After all, “action” is our middle name. **It’s time to Wage Hope.**

Scientific Research

It's time to Wage Hope for more breakthroughs. We are relentlessly exploring revolutionary early detection methods and promising new treatments for pancreatic cancer.

For every \$1 we awarded from 2003 to 2013, our grantees secured an average of \$8.28 in additional pancreatic cancer research funding.

Our total research investment in FY14-15 was nearly \$6.9 million – up 22% over the prior year.

We're building a robust pancreatic cancer research community – over 95% of Pancreatic Cancer Action Network-funded researchers are staying in the field.

Additional updates from Scientific Research

123

We've funded 123 grants to 122 scientists at 51 institutions across the country.

92

Our 92 grantees who received awards from 2003 to 2013 authored an astounding 1,191 articles in biomedical journals.

13,000

Our 2003-2013 research grantees' articles have been cited more than 13,000 times in biomedical publications.

Government Advocacy

It's time to Wage Hope for more federal research funding. Our advocates are constantly working to focus the attention of Congress on pancreatic cancer and increase the allocation of research dollars for our cause.

More than 550 people attended Advocacy Day – 100 more than in the prior year.

Congress received 28,935 messages from nearly 8,000 Pancreatic Cancer Action Network advocates.

500%

We've boosted National Cancer Institute funding for pancreatic cancer by 500% since starting our efforts in 1999.

Additional updates from Government Advocacy

2 billion

Thanks to our advocates' outreach, the Senate approved a \$2 billion increase for the National Institutes of Health – the largest since 2003.

2,263

More than 800 people made 2,263 calls and sent 22,000 "I Wage Hope" cards to Congress supporting Advocacy Day.

50 million

Thanks to our advocates' messages to Congress, the Senate approved our request for \$50 million as part of the Department of Defense's Peer Reviewed Cancer Research Program.

Research

We defeated two amendments that would have gutted critical research programs.

Patient Services

It's time to Wage Hope for more knowledge. Our Patient Central Associates help patients and their families by providing highly personalized assistance and vital information about the disease, treatment options – including clinical trial searches from the largest clinical trials database in the country – and so much more.

We're celebrating our 100,000th contact to Patient Central since 2002, assisting more pancreatic cancer patients and families annually than any single institution in the world.

We launched our Know Your TumorSM personalized medicine service and enrolled 350 patients, providing them with more information to make informed decisions.

Clinical trial searches have increased by 82% over the last three years, thanks in part to the launch of our online Clinical Trial Finder this year.

Additional updates from Patient Services

86%

86% of patients and caregivers said they felt better prepared to cope with the disease after speaking with a Patient Central Associate.

11,000

Patient Central (formerly called "PALS") served more than 11,000 contacts over the last year.

97%

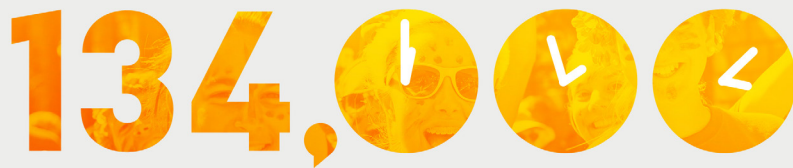

The average quality assurance score of our Patient Central Associates was 97%.

93%

93% of our respondents told us they felt more knowledgeable after speaking with a Patient Central Associate.

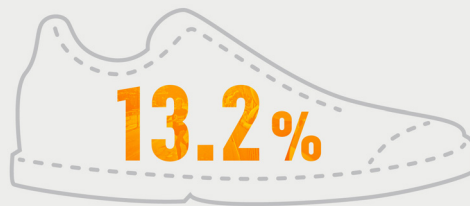

Community Outreach

It's time to Wage Hope for more awareness. Our army of devoted volunteers works tirelessly to raise awareness of pancreatic cancer, recruit more people to join our cause, and support our national PurpleStride and PurpleLight events.

Volunteers gave over 134,000 hours of their time to our cause.

PurpleStride events raised \$12.7 million net – up 13.2% over the prior year.

Corporate and community teams raised more than \$10.4 million – up 13% over the prior year.

Additional updates from Community Outreach

1.5 million

PurpleStride sponsors contributed approximately \$1.5 million in support – up 37% over the prior year. We also welcomed our first national sponsors – Celgene and AbbVie.

1.3 million

Do-it-yourself fundraising events yielded a total of nearly \$1.3 million.

101,367

101,367 people attended signature events such as PurpleStride.

1,717

Volunteers across the country shared their stories and generated nearly 1,717 media hits – an increase of 18% over the prior year.

And we didn't stop there.

We introduced our new rallying cry, "Wage Hope."

For the 11th year in a row, we received Charity Navigator's four-star rating for sound fiscal management and transparency. Only 1% of the charities rated by Charity Navigator have received 11 consecutive four-star evaluations.

We co-chaired and helped launch the first World Pancreatic Cancer Day to raise awareness globally for the disease. Some 30 pancreatic cancer organizations in more than 20 countries participated.

Our accomplishments demonstrate that we're making progress toward our goal of doubling survival by 2020. But there are still challenges we must overcome to ensure that we keep forging ahead. We have an aggressive plan to combat these challenges with even greater urgency.

THE ROAD TO

2020

CHALLENGE ONE

There aren't enough researchers and resources. The brightest minds are attracted to difficult challenges, but they need money to develop innovative solutions. We will continue to ensure that pancreatic cancer research receives increased private and federal funding.

CHALLENGE THREE

Trials don't match what patients need. Clinical research doesn't take into account the heterogeneity of pancreatic cancer patients and their tumors. We promote running "smart" clinical trials by providing information through our innovative services like Know Your TumorSM, and driving clinical trials that are based on the needs of real patients.

CHALLENGE FIVE

Pancreatic cancer is one of the deadliest cancers, yet not enough people are taking action to change it. We'll continue to heighten public awareness and visibility by growing our strong volunteer network that raises awareness and support.

CHALLENGE TWO

The clinical trial enrollment rate is too low. Only 4.5% of pancreatic cancer patients enroll in clinical trials, slowing progress toward new diagnostic tools and treatments. We will work to increase the clinical trial enrollment rate by continuing to inform patients about their options.

CHALLENGE FOUR

Some 80% of patients are treated by physicians who may only see a few pancreatic cancer patients a year. We will identify and share best practices in care and treatment with physicians and other healthcare professionals across the country.

We're making real progress, thanks to you.

~ **100% increase** in median overall survival from Phase III clinical trials since 1999.

~ **500% increase** in National Cancer Institute funding for pancreatic cancer since 1999.

~ **500% increase** in the number of National Cancer Institute-funded investigators studying pancreatic cancer since 1999.

~ **400% increase** in the number of annual peer-reviewed pancreatic cancer publications since 1999.

~ **600% increase** in Patient Central contacts since the program started in 2002.

~ **300% increase** in PurpleStride participants since 2009.

It's time to Wage Hope with us.

We're rewriting the book on how to fight a deadly disease. And you play a vital role in the story of our continued success. Together, we're able to do so much more.

We have a new goal to raise \$200 million over the next five years to significantly increase our investment in groundbreaking research and clinical care that can improve patient outcomes. We need you to be part of the next chapter. Your support will make a big difference, not only today, but for future generations. And there are many ways you can do that:

Volunteer

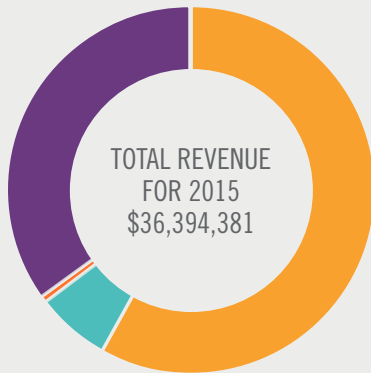

Join us by participating in local events to raise awareness and generate critical donations. When we all come together, we are more powerful!

Advocate

Elevate our cause to new heights by raising your voice, spreading the word in your community and educating Congress. With all of us speaking out, we will be heard.

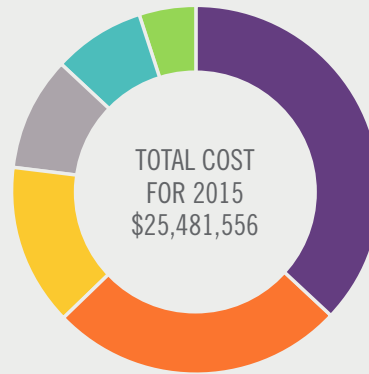

Donate

Support our \$200 million five-year fundraising goal. Wage Hope through your generosity, and in turn, create a brighter future for patients and families. Together, we will change the course of history for pancreatic cancer.

To Our Generous Donors

With deepest gratitude to everyone who made an investment in the future of pancreatic cancer patients this past year.

We were especially honored to receive the largest gift in our history – an extraordinary **\$15 million** donation to honor the memory of visionary entrepreneur and philanthropist Skip Viragh, who died of pancreatic cancer in 2003. This generous gift supports our \$200 million five-year fundraising goal that will help us accelerate progress.

2014–2015 Fiscal Year

Honoring and thanking donors contributing at least one single gift of \$1,000 or more.

Reflective of gifts given between July 1, 2014, and June 30, 2015.
