BRING AWARENESS AND HOPE TO YOUR COMMUNITY

THE PANCREATIC CANCER ACTION NETWORK

is a nationwide network of people dedicated to advancing research, supporting patients and creating hope for those affected by pancreatic cancer. With the support of thousands of volunteers across the country, we're a leading force in helping people understand pancreatic cancer, assisting patients and their families fight the disease, advocating on behalf of the community, and pursuing scientific breakthroughs. This work is critical. Pancreatic cancer is the fourth leading cause of cancer death in the U.S. Although decades behind other cancers in research discoveries and treatment options, pancreatic cancer receives the least amount of federal funding of all major cancer killers. Join us in our efforts to know it, fight it and end it.

GET INVOLVED WITH YOUR LOCAL AFFILIATE

The Pancreatic Cancer Action Network is powered by dedicated and passionate volunteers in more than 70 affiliates around the U.S. They are the force behind the progress we have made and they work tirelessly to raise much-needed awareness and funds, and educate communities about pancreatic cancer.

TALK TO HEALTHCARE PROFESSIONALS

Volunteers distribute Patient and Liaison Services (PALS) program information to local healthcare professionals so patients are referred to our highly trained PALS Associates. PALS provides comprehensive information and resources about clinical trials, pancreatic cancer, treatment options, diet and nutrition, etc, free of charge.

CONTACT THE MEDIA

Pancreatic cancer is the least understood and least known of all the major cancer killers. One article, one news story can reach your entire community. We provide all of the tools and templates for you to share your story with the press.

ADVOCATE FOR MORE RESEARCH FUNDING

The federal government is the largest source of funding for biomedical research, and is capable of moving research forward quickly. The Pancreatic Cancer Action Network has tools you can use to be an effective advocate and ensure your elected officials make pancreatic cancer research funding a priority.

ORGANIZE A FUNDRAISING EVENT

Volunteers host hundreds of community fundraisers every year, from walks to galas. Our staff is available to support your efforts and provide you with the resources and information you need to create community involvement, raise awareness and fundraise for a cure.

JOIN THE SURVIVOR AND CAREGIVER NETWORK

Receiving the diagnosis of pancreatic cancer can be a frightening time for both patients and their loved ones. As a Survivor and Caregiver Network volunteer, you can be a source of hope and encouragement and ensure that no one faces pancreatic cancer alone.
